

Flopper

Your Study Friend

What is Flopper ?

Flopper is a device for studying and tracking time while you give a break.

What does it contain ?

- OLED screen
- IMU sensor
- Rotary encoder
- Buzzer
- ESP32
- Battery

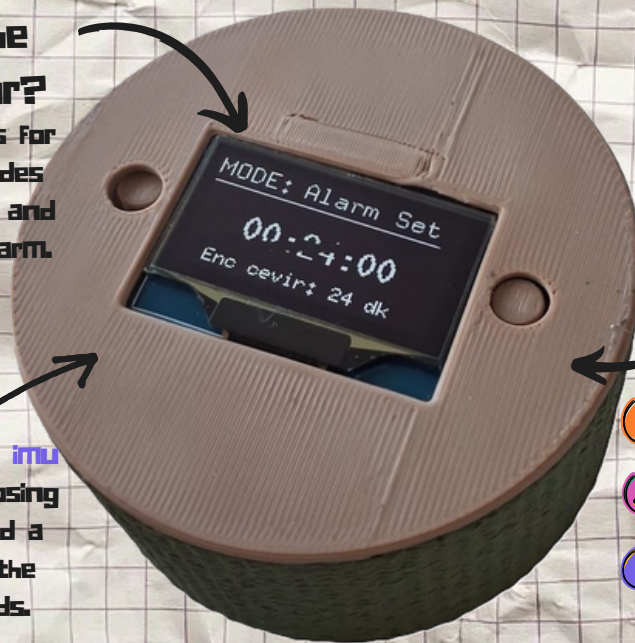

What's the screen for?

This screen is for selecting modes, tracking time, and setting the alarm.

It also has an IMU sensor for closing the alarm and a buzzer for the alarm sounds.

How Do I Use It ?

- ① Rotate the body to pick a mode
- ② Set alarm or break duration
- ③ Shake to dismiss the alarm
